# Bayburt

## Bayburt

Bayburt is located on the historic Silk Road connecting the Eastern Anatolia to the Black Sea. Located on the banks of the river Coruh, the city's history dates back to 3000 B.C. Evliya Celebi, who visited Bayburt in 1647, describes its name with the words "bay" and "yurt" which mean "rich" and "town", respectively. Occupied by Russian in 1916, Bayburt was destroyed to a great extent. Having been a part of Erzurum until then, Bayburt was attached to Gumushane in 1927 and it gained a province status in according to the law number 3578 in 1989. According to the addressed-based 2017 data of TUIK, Bayburt province has a population of 80,417.

# Bayburt

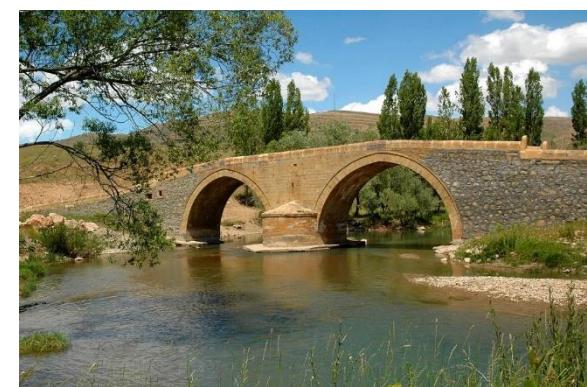

## Historical, Cultural and Touristic Destinations

A province rich in historical and cultural values, Bayburt also draws attention of local and foreign tourists with its touristic destinations and natural beauties. The historical and cultural structures, many of which are Turkish, shed light on the history of the city. The most important of these is undoubtedly the Bayburt Castle which is located on a hill in the capitol city and attracts attention by its location, structure and architectural features.

Aydintepe Undergorund City in Aydintepe district is the second most important value of the city.

Baksi Museum, one of the world's first village museums and spreading over 30 acres of area with its exhibition halls, was founded on a hill overlooking the Coruh.

Cimagil cave, the tomb of Dede Korkut, Korgan Bridge, Sirakayalar Waterfall, Saruhan Citadel, Yenisehir and Aslandagi Recreational Facilities are other destinations attracting many visitors each year.

## Bayburt University

Bayburt University, one of the youngest higher education institutions of Turkey, was founded on May 31, 2008. Bayburt University aims at being one of the universities and/or institutes well known in the world in education, research and service, supplying unique choices for training and individual development of the students, being an academic structure responsible for promoting life quality of the regional and national population and being an address of student-focused research.

## About Department of Industrial Engineering

Bayburt University Department of Industrial Engineering was opened in 2016. The department offers the undergraduate level education for prospective students. The faculty of Department of Industrial Engineering has a professor doctor, an associate professor doctor, two assistant professor doctors and five research assistants.

The department offers a wide variety of mandatory and elective courses for prospective students. The aim of the department is to train new Industrial Engineers, who find solutions to the problems of the service and manufacturing systems using Industrial Engineering and Operations Research techniques.

## Faculty

### Faculty of Department of Industrial Engineering

#### **Professor Doctor (Prof. Dr.)**

Metin Ucurum, Department Chair (Interest areas: Statistical quality control and design of experiment)

#### **Associate Professor Doctor (Assoc. Prof. Dr.)**

Mehmet Cinar (Interest areas: Industrial applications and physics)

#### **Assistant Professor Doctors (Asst. Prof. Drs.)**

Hamid Yilmaz, Department Deputy Chair (Interest areas: Scheduling, production planning and optimization)

Akin Ozdemir, Erasmus Coordinator (Interest areas: Applications of operations research and quality engineering)

Cagatay Teke (Interest areas: Total productive maintenance, design of experiments and optimization)

#### **Research Assistants (PhD Students)**

Didem Guleryuz (Interest areas: Statistical quality control and optimization)

Serhan Kokhan (Interest areas: Industry 4.0 and multi-objective optimization techniques)

Seyma Emec (Interest areas: Analytic hierarchy problems, facility planning and supply chain management)

Reyhan Merve Topcu (Interest areas: Taguchi experimental design and its applications)

# Department of Industrial Engineering Erasmus+ Programme

Erasmus+ will support transnational partnerships among Education, Training, and Youth institutions and organizations to foster cooperation and bridge the worlds of Education and work in order to tackle the skills gaps we are facing in Europe.

We are interesting to cooperate with European universities in the framework of ERASMUS+ program, especially in students mobile directions. We have ERASMUS+ agreements with the following universities:

**Politehnica University Timisoara**

Timis, ROMANIA

# Department of Industrial Engineering

## Farabi Exchange Programme

Within the scope of the Farabi Exchange Program which enables student exchange among higher education institutions in Turkey, students can continue their education in another higher education institution for one or two semesters.

We have Farabi agreements with the following universities:

Ataturk University, Erzurum, Turkey

Firat University, Elazig, Turkey

# Department of Industrial Engineering

## Mevlana Exchange Programme

Within the scope of Mevlana Exchange Programme, the students registered in formal education programmes at Associate Degree, B.A, M.A and PhD levels of the higher education institutions in Turkey (on condition that the higher education institutions signed a bilateral Mevlana Exchange Protocol) may benefit from Mevlana Exchange Programme. Students can benefit from Mevlana Exchange Programme for at least one semester and at most two semesters. As the semester duration may differ according to the education system of universities, the total duration of mobility can not exceed one academic year.

We have Mevlana agreements with the following universities:

Kish International Campus University of Tehran, Iran

University of Science and Technology, Yemen

International Black Sea University, Georgia
